STRATHCONA NEWS

NEW SECRETARY-TREASURER WAS APPOINTED.

H. G. Clark the Successful Applicant—Quintus on Quiltly Decided at Meeting Last Night.

An eager expectant crowd of curious onlookers lined the sides of the Strathcona council chamber last night and awaited with bated breath, what was set down to be the main item in the appointment of a "certain gentleman," presumably Mr. Clark, to be a stern when the appointment of a new secretary-treasurer came up for discussion.

At a previous meeting the mayor had expressed his strong disapproval of the appointment of Mr. Clark to that position, and had stated to the council board that if they persisted in the appointment of a "certain gentleman," presumably Mr. Clark, he would read a certain statement and let them act as they thought fit at the time.

Summers were current on the street that the mayor would resign if the council opposed his wishes, and, curiously drew many last night to see the outcome of the situation.

There was big disappointment however. When the order of business, the appointment of a secretary-treasurer was called, the mayor said that at a previous meeting he had intimated that he would read a statement.

The appointment of a certain gentleman was called at the council board and he called at his office and made a full and complete explanation, which was entirely satisfactory to him.

Then came the ballot. On the first vote taken, there was a full ballot in favor of H. G. Clark, and on the second vote, Mr. Clark was elected.

By Alderman Crawford, he was appointed to the position, his duties to commence today.

Thus the appointment, which was looked forward to with fear by those who dreaded an open clash in the council, was made.

But Mr. Clark was not content to have the entire matter thus easily passed over. He rose from his chair and inquired of the mayor if the gentleman had tendered a sufficient resignation to the council of the audit.

Several of the ratapatties, he said, were more or less dissatisfied. The mayor replied that the question of the audit had passed the council and could not be reconsidered without a formal motion.

Mr. Clark insisted that his question be answered, and finally asserted that he would "not make the council an ass."

Thus the matter ended, the council proceeded to order business and the big crowd of disappointed spectators faded gradually away.

LOCALS.

G. Percy Byrde, Edmonton, has been recommended to the position of city auditor of Strathcona.

The marriage took place this morning of Miss Maud McGee, daughter of Wm. McGee, Strathcona, and later in the afternoon, Edmonton, to Wm. Brock, of the same place.

The ceremony was performed by Rev. Dr. Riddell. The happy couple left by the morning train on a honeymoon trip to Banff.

A Berg, of the firm of A. Berg & Sons with Canadian headquarters at Toronto, is in the city introducing machinery for the manufacture of brick from sand and lime.

The Strathcona Industrial Exhibition association have received an offer of \$50,000 from English capitalists for their grounds, but have decided not to accept.

Today morning at 7 o'clock the marriage took place at Holy Trinity church of Allen Clutterham and Miss Gertrude Todd, formerly Nurse Tofield, daughter of Dr. Tofield.

The ceremony was performed by Rev. W. A. George. The bride was given away by James L. Fort, Miss Pearl Currier, of Edmonton, was the bridesmaid, and Bert Clutterham was best man.

The happy couple left on the southbound train for Vancouver for their return to live in Calgary.

Popularity of the young couple was demonstrated by the many hand-some presents received.

MEETING OF CITY COUNCIL.

Considerable Business Was Transacted Last Night by the Strathcona Board.

The regular weekly meeting of the Strathcona city council was held last night with Mayor Mills in the chair and a full council board present. At the reading of minutes by Mr. Downes, the council occupied the position of secretary-treasurer for the last time, and the passing of bills, communications were reached.

Communications.

A. T. Mills wrote calling attention to the lane in block 40, east of Grandin street school. The lane, he said, was impassable, owing to the number of trees, and he asked that it be cleared so he was shortly to see to it with his property.

In this connection the mayor suggested that in future, before the place of subdivisions be approved by the council, they be placed in shape and the lanes cut out.

This matter was referred to the public works committee.

John Stock, deputy minister of public works, wrote enclosing a copy of the new subdivision bylaw on which his approval was endorsed. The letter was filed.

The district manager of the Bell Telephone Co. intimated that the poles on the west side of Main street would be moved by the first of July as desired. The letter was filed.

E. Manchester asked that his salary as engineer be increased to \$125 per month in view of increased work. The matter was referred to the council.

The secretary of the Union of Canadian Municipalities wrote enclosing the bill for membership fee and pointing out the benefits of the union in

securing desired legislation, etc.

Henry Wapshot, pound keeper, reported that he had, during the month of May, impounded 25 cattle, 5 horses and 1 dunkey. All had been claimed out two horses, which he now had advertised for sale.

The secretary of the Hospital Aid asked that the salary of the matron be increased \$100 per month from June 1st.

The Beaman Sanitary Co. lettered the corporation of the city, the McVulloch letter re draft were ordered to be filed.

The following petitions for subdivisions were received:

Eugene Laforce and others, asking for a 5 ft. plank sidewalk on the west side of Nitkowich from the northeast corner of block 27 to the southwest corner of block 32, also a 5 ft. plank sidewalk on the south side of Atlanta Avenue and South Avenue from the southwest corner of block 47 to the east of the agricultural grounds.

Chas. E. Tipton and others, for a 4 ft. plank sidewalk on the north side of Rouleau from the southwest corner of block 23 to the southeast corner of block 28.

Millard Miller and others, for a 5 ft. plank sidewalk on West Canmore from the southeast corner of block 71 to the northeast corner of block 120.

D. Moreau and others, asking for a 1 ft. granite sidewalk and boulevard on the west side of Hardy from the southwest corner of block 40 to the northeast corner of block 45.

Frederic Brode, and others, for a 5 ft. granite sidewalk on the southwest corner of block 70 to the northwest corner of block 75.

Deputations.

On motion standing rules were suspended to hear deputations.

Robt. McKernan appeared and protested against the enforcing of the pound bylaw on the far western subdivisions.

He spoke on the fact that the neighbors, whose cows had been impounded in the night, had been told of the fact that they were only a few houses and no gardens in some of the subdivisions.

He also asked with reference to the electric light installation in the city, that the city should be allowed to have the right of way.

He had already changed the wiring three times in response to requests of the electrician, and now had been requested to make further changes. He said that he knew if he conformed to the directions of City Electrician Kelly would it be satisfactory to the city. The mayor assured him it would.

Mr. McKernan protested against Mr. McKernan's request to allow cattle at large. He didn't think it was right when he was sleeping on his restful pillow to allow any unquarantined cattle to be at large.

He urged the enforcement of the bylaw and if the council would enforce it they would do him a great favor.

Reports of Committees.

The bylaw committees reported on dog tax recommending that dogs be taxed \$4 each, bitches \$4 each and registered kennels \$15, if not allowed at large.

The sewer and water committee reported that two tenders had been received for the completion of the Delta & Main contract, and one for the sewer and water extension.

The committee recommended that none be accepted but that the work be done by day labor and a foreman immediately be procured.

The hospital committee reported the committee decided that work be proceeded with at once on the excavation and that the architects advertise for tenders for the construction of the building at once, tenders to be in by June 17th.

The public works committee recommended the construction of the granite wall asked for on the south side of Rouleau, block 44.

The hospital committee recommended that they had extended the time for excavation tenders until this meeting.

The hospital committee recommended the appointment of a night inspector at \$10 per month. Dr. Wainwright will be the official.

Engineer McLean reported that the power house contract of Delta & Main would still require \$60,000 to complete it. The contract was for \$88.

The contract for catch basins, etc., was discussed in committee.

The improvements being made to the Bathurst building at the corner of Whyte and Main were discussed for considerable time. The building inspector had protested against the continuation of the work and brought the use to the attention of the council.

The owners of the building appeared and after the matter was further discussed, Ald. Elliott, Crawford, Rankin and the mayor were appointed a committee to confer with the building inspector this morning.

A number of the bylaws and other routine business, including suggestions for the new city auditor was transacted before the meeting adjourned.

length of the private apartments, and the plan of its arrangements was mainly devised by Queen Alexandra. The long corridor is a treasure house of interesting objects. In this corridor Queen Alexandra sometimes entertains at afternoon tea a few guests who have the privilege of being on terms of intimacy with her majesty. It is also a favorite haunt of the young princes on wet days when they are confined at Windsor. They run races and indulge in other juvenile athletic pastimes up and down the long corridor.

On the right of the long corridor is the room chiefly used by Queen Alexandra. These are known as the white, the green and the crimson drawing rooms. From the coloring that is generally observed in each, as a story and a clue, it is possible to guess the most stately and magnificent of the royal apartments. When the foreign royalties are being entertained a large party of guests at Windsor. When foreign royalties are being entertained at Windsor castle it is in the white drawing room that they "visit" her majesty. During the visit the ordinary routine of life the court is considerably altered. The state apartments, which at ordinary times are never used, are occupied on such occasions by the royal family who are "visited" there by the king, the queen, the king's children, the royal visitors, "visits" King Edward and Queen Alexandra, and it is on these occasions that the white drawing room is chiefly used.

The crimson and green drawing rooms are the Queen's favorite apartments. From the former a lovely view is obtained, and it is her majesty's favorite room at Windsor. The green drawing room is a room of considerable size, and the furniture is perhaps a more homely appearance than the others, and contains more of her majesty's personal possessions than any other room in Windsor castle. It was formerly the room of the Princess Patricia and Victoria of Connaught, and it was the room of the princess of the Queen, and it is in the green drawing room that the king and queen entertain their guests. The green drawing room is a small one. The green drawing room is a small one. The green drawing room is a small one.

So Easy!

It is easy to see the joke as long as it is on the other fellow.—Following is a good joke, but Heron Bodman insisted upon his own punishment and carried his case to the highest officials, who finally decided to his request and fined him £100. The public is recalling this story of Heron Bodman, now that he has been named Minister of the Interior—New York Post.

DELICIOUS ORANGE PUDDINGS.

One cup of stale bread crumbs in one-half cup of milk for an hour, then beat until smooth. Mix in the cream of tartar and sugar, and add two oranges (juice, if preferred), and the yolks of two eggs beaten with one-half cup of sugar; then add the whites of two eggs beaten stiff. Butter six custard cups and divide the mixture between them, and set in a pan of water. Bake in a moderate oven fifteen or twenty minutes. The cups should be about two-thirds full. Serve with liquid sauce.

SOCIETY FOR PREVENTION OF CRUELTY TO ANIMALS.

The Society for Prevention of Cruelty to Animals which was organized in this city some time ago is now preparing as it deserves to do. This is not due to any fault of the workings of the organization, but rather to a lack of support from outside, caused by the fact that the society is not as active as many other societies. Citizens generally despise companies with the movement, and when the matter is called to their attention they will express their sympathy in a practical manner.

The Queen's Private Apartments.

The private apartments which are occupied by their majesties, King Edward and Queen Alexandra, when the royal couple are in residence at Windsor castle are quite separate and distinct from the state apartments, which the public is at stated times permitted to visit, says G. Ashcroft, writing in the "Illustrated London News." The royal couple's apartments are in the "White House," the lie beyond the state reception rooms adjoining the "White House" and are entered by a massive oak door that moves easily and readily on wheeled hinges. The door opens up to a short corridor that is covered by a carpet of blue and gold, and is probably the most magnificent chandelier in the world. The room is electrically lighted cabinets at either side of the marble walls have a row of seats of velvet, Worcester and Chelsea china, each set having a set of interesting and valuable objects, and each absolutely perfect. The china closet opens into the long corridor which takes the whole

understand is a decided drawback. To obtain the desired degree of success a thoroughly organized effort is required.

One of the remedies for existing forms of cruelty suggested by the society is humane education, especially amongst the young. To secure the sympathy of the children it is necessary to circulate among the public and pictures. The society would wish to offer prizes to the pupils of the best essays on such subjects as kindness to dumb animals, the study of nature, etc. But all this requires funds, which up to the present time have been very scanty in coming in. The subscription for the membership is \$25, but the ordinary fee for life is \$1 and upwards for adults, and for children 25 cents. This fee is a mere bagatelle, which hundreds of our citizens could give with out the slightest inconvenience. We hope many subscribers will be sent in to Mr. E. Block, secretary, R.R.P.C.A., P.O. QUINCY HARRALL, Manager.

WEDNESDAY, JUNE 3, 1907.

A QUICK MANOEUVRE.

A couple of months ago Conservative journals in Ontario assayed a vigorous but abortive attempt to create an impression that Ontario was being discriminated against in the conduct of the immigration work. Harrowing tales were told of the plight of the Ontario farmer whose fields were going unfilled because farm laborers could not be secured and the latter once appeared reasonable that unless something happened the real harvesting would have to be done by the farmer's wife and daughters. To this situation the Federal government was represented as being completely and hopelessly blind; as purposely and maliciously ignoring the charms of Ontario in the preparation of immigration literature, and of so operating the immigration machinery in Canada as to herd the immigrants safely through Ontario to the western provinces.

The matter eventually came up in the House of Commons and was so ventilated. The Minister of the Interior announced that recognizing the scarcity of farm laborers in Ontario in previous years the department had already taken steps to prevent a recurrence during the present season. Local immigration agents had been appointed throughout the province who would be allowed a fee for each farm laborer placed in employment in their respective districts. It was the business of these agents to advise the officials at the ports of entry of the number of laborers needed, to meet them on arrival and place them where needed. This killed the immigration story, but there is always the other side of the case. Having failed to condemn the government because Ontario was not getting enough immigrants the Mail and Empire could charge front and now backs the department because the district around Toronto is getting too many immigrants.

A POOR SEER.

James Creelman contributes to the current number of Pearson's Magazine a well-illustrated story purporting to describe the remarkable life of a Canadian who came to Canada from the United States to the Canadian west. Criticism of a friendly article may appear ungrateful, but Mr. Creelman's attention appears to have been occupied much less with what he saw in the present than with what he had read of the past and what he fancied he saw in the future. As a result for one paragraph devoted to the settlement of Americans in Canada we have two paragraphs of history and several paragraphs of guessing at our political future. The description is good, the history is fairly good and the prophecy is distinctly bad. Like many wandering fictionists, Mr. Creelman appears to be filled with the delusion that Canada is a spiritless race who bear the yoke of bondage in silence, waiting patiently for the happy day when they will be able to cast off the fetters of British allegiance and unfurl a banner with a strange device. The article naturally resembles less the testimony of a man who came to see than the report of one who came to seek confirmation of a preconceived notion, and who brought with him a rather poorly-selected smattering of his history.

A PROMISING OUTLOOK.

It appears certain that the total crop area of the western provinces is materially larger than that of last year. The wheat acreage of Manitoba is considered somewhat smaller, owing to uncertainty created by late spring, but this shortage is doubtless more than balanced by the increased area sown to wheat in Alberta and Saskatchewan. Though the wheat acreage of Manitoba may be less than last year the total crop acreage is doubtless very largely increased, some land which last year produced wheat being this year sown with oats and barley, as in Alberta and Saskatchewan, a very large area of new land will this year produce its first grain crop. With a continuance of favorable weather, therefore, the western provinces

should this year equal the wheat crop of last year and should show a very material increase in other grains. And the present indications are that a bushel of grain will be worth very much more to the producer and hence to the country in the fall of 1907 than it was in 1906.

THE MAYOR IS MAD.

Reph Connor said there was only one thing better than success, and that was being able to take defeat like a man. The latter is evidently not one of the virtues of Mayor Griesbach as the fine rage which he has lashed himself into in his letter to the city would go to show.

When a man occupying a public position gets a swelled head and tries to run a show that is too big for him there is generally quite a crash when he falls, and most of the noise is usually made by himself. The present case is no exception to the rule. The Bulletin has maintained a consistent attitude throughout the discussion of the city by-laws, and after the tortuous course pursued by the Mayor, to be called names by him is represented as being sufficiently bold to state that to be opposed to him is "so much the worse for the Bulletin." It probably will be hard on us, but we will try to bear up under the load of His Worship's displeasure, and maintain a cheerful countenance, and if possible, at least keep our temper.

ON THE SIDE.

Toronto Globe: "Dowie's attempt to build a tower to the chrysan fields is still resulting in a confusion of tongues." This is an error. The linguistic differences are due to immigration, not theology.

Endorsing Premier Laurier's attitude at the Imperial conference the Toronto News says: "We cannot afford to interfere between the British 'parties' or to coerce British opinion." There is also the minor consideration that we couldn't do so if we wanted to.

The Winnipeg Telegram considers the subject of the security of candidates for the ministry sufficiently important to demand the serious thought of every man and every woman who earnestly desires to see Western life triumphed with those influences which "only the church can surmount."

The Winnipeg Telegram declares that Winnipeg has ever been a village, a town and a city of "home lovers" and "race enthusiasts." The former phrase is doubtless only a jealous glint at the peculiar tastes of the Winnipeg ladies; the latter is not presumed to indicate an executive nationalism on the part of the city's composite population.

Vancouver lumbermen want it distinctly understood that the drop in wages is entirely due to the law of supply and demand. It is not so long since they tried to persuade us that the successful booster in the price of lumber were due to the same cause. Their error in the former instance has created an impression that these gentlemen are given to overworking the natural laws of commerce.

A prominent Chicago physician basing his prediction on the decrease of the last few years in the mortality from tuberculosis, asserts that in a quarter of a century the ravages of the disease will be practically stayed. This is good news for the coming generation, but it is not altogether comforting to the man who expects to see his living during this particular "quarter of a century."

An exchange says: "The American 'visitors to the Italian' were sent 'over to take part in the Jemeter' celebration have stolen all the convenient portable articles in the 'silverware' equipment of the vessel. The motive of the thieves is to obtain money, and it is said of the 'ex in this instance were women of 'high social standing.' Well the dagbush won't get much sympathy. A hatpin that can't protect itself from the devotion of souvenir hunters is pretty lucky if only its silver plate turns up missing. The only wonder is that the women didn't start to pry off the armor-plate."

HAYWOOD JURY IS NOW COMPLETE

Selection of Talemans Complete
—Outline of Case of the State.

Boise, Idaho, June 3.—The Haywood jury was completed this afternoon and sworn in. The jury consisted of the following: Thomas B. Green, foreman; Finley McLean, rancher; Samuel D. Gilman, farmer; Dennis Clark, farmer; George Powell, rancher; V. Nelson, farmer; H. F. Messer, farmer; Les Scrivener, farmer; J. A. Robertson, farmer; Lewis Smith, carpenter; A. B. Burns, farmer; Sam Russell, farmer.

The defence had contemplated asking permission to reopen the examination of certain jurors, but this was abandoned, and when Judge Wood ordered the jury sworn, no objection was made by either side.

After the mid-day recess Haywood attended the reading of the indictment of the jury. He had come to the courtroom somewhat pale from his illness of Saturday last, as the clerk began reading the indictment his face flushed. He looked away for a few minutes, and then, moved his head and returned to his seat. He was then returned to his seat. He was then returned to his seat. He was then returned to his seat.

It will be alleged that Haywood and his associates, standing and working in the background, planned the long list of crimes, and sent Harry Orchard and Steve Adams forth as hired assassins. The state's testimony will begin with a rehearsal of the murder of Frank Sweeney. The presence at Caldwell of Orchard and John L. Sunkins, a member of the executive board of the Western Federation of Miners, will be shown. After that, Harry Orchard will be connected with the scene and then Orchard will be called to the stand to repeat the confession which it is alleged he made to Detective McPharland. After that will come the state's effort to connect Orchard's story, and to clinch by other testimony the alleged grand plot of the Western Federation of Miners and the alleged irregular part of Haywood in the murder of Sweeney.

In the work of preparing the jury the court has been in session fifteen days, and the talesmen have been examined and sworn in 24 hours, qualified, including the twelve men now on the box.

In an interview Mr. Darrow and Mr. Richardson of counsel for the defence, after the empanelling of the jury a statement was made that the jury is made up of eight Republicans, three Democrats and one prohibitionist. That there is no man on the jury who works for wages or who has ever belonged to a labor organization, excepting one, who was a member of the carpenters union fourteen years ago.

ago; that the jurors appear to be men of honest purpose determined to give the defendant a fair trial, but that they are drawn from a small county, almost wholly agricultural; that each member for a year and a half has read little about the case except what has been contained in the home daily papers; that this has been uniformly hostile to the defendant; that nearly all of them admitted that they had turned opinions from what they read, and that necessarily these must have been against the defendant.

Commenting on the jury, Jas. H. Hayley, lecturer counsel for the state said: "We are thoroughly satisfied with the jury. We have twelve fair-minded men who will do even justice between the defence and state."

REGINA MAIL OPTIMISTIC.
Regina, June 4.—Mr. Cook, one of the leading men of the city, returned on Saturday from a visit across country in the district north of Mr. Cook states that crop conditions could not possibly be better than he found them throughout the whole of the area covered during his trip. The grain was everywhere in splendid condition and the weather in height. Mr. Cook, who travelled over the same country last year, says that a careful estimate of the area sown this year goes to show that it is from 25 to 30 per cent in excess of the area in crop last year.

SPECIAL DISPLAY of Ladies' Coats and Suits

at the Hudson's Bay Stores

We have just received a large importation of Ladies' Rain Coats and Suits. These are without doubt the most stylish and exclusive designs that we have ever had.

There is a feeling with the Edmonton Ladies to wear nothing that is not absolutely the latest. We have, therefore, gone more extensively into these high grade goods.

The New Eton Suit, with Gibson shoulder, is one of our most popular designs this season. In Fine Tweeds trimmed with Persian Lining, also in Chiffon Broadcloth, Panama Cloth and light weight Serges.

In Ladies' Coats we have a Novelty made in Cream Serge and Cream Mousquetaire, beautifully embroidered in Silk at \$10.00, \$15.00 and \$18.00. This is undoubtedly the smartest thing of the season.

Your inspection is cordially invited.

Graham Brothers, lumber yard. H. Oppenheimer, hardware. F. Kuhn, restaurant. C. Sand, meat market. F. Kuhn & Son, livery stable. Tempest & Humeau, blacksmiths. In addition to the above buildings there are at present under construction another meat market, a blacksmith shop and a \$5,000 livery barn for Joseph Zucht.

Mr. A. F. Ewing, barrister, of Edmonton, has opened a branch office

which is a credit to the town, and will shortly install a daily service when the town will be served with a daily mail instead of semi-weekly as at present.

The Government telephone line is extended to within two miles of the town and as the poles for the rest of the distance are already on the ground an exchange will probably be in operation within the month.

Citizens And C. P. R. Navies Indulge in a Mix-up.

Calgary, June 3.—There was a strenuous battle at Olds between citizens and the Canadian Pacific Railway over the closing of the crossing. The railway won out and a switch is now laid over the crossing. Yesterday noon Superintendent Nyckol and 50 navies, and 12 mounted police left on a special from Calgary. Several arrests were made, among them being C. P. R. special officer, J. P. Broadwater, and Superintendent Nyckol and 50 Olds special constables. All were turned loose again. Inspector Duffus read the riot act threatened to shoot people of Olds who interfered.

COAL COMMISSION AT FRANK.

Frank, Alberta, June 4.—In the commodious village schoolhouse situated at the foot of the mountain which allowed its peak to slip away and bury a part of this mining town under a mass of rock, the coal commission began its first sitting in the past this morning. The evidence offered by the miners who were on the stand this morning was in line accord with the views of the miners on the prairie. The witnesses were from the mine of the Canadian American Company at Frank. The coal commission law from bank to bank is in force there, but James White, president of the local miners' union, said the union wanted this eight-hour day fixed by law, so that no attempt could be made to abolish the experience. Mr. Wilson was not entirely pleased with the conditions in the mines. More protective life would be given, and he thought a compensation act would guarantee this. He was slightly acquainted with the act in existence in Nova Scotia, and knew that the miners exploited there to a fund along with the operators and government to provide for cases of accident. He favored legislation compelling the operators to place the timbers as near the working face as possible to the miners here. The men were paid by the yard and the day. His wage averaged \$1.50 per day. This seemed to be the prevailing wage here. To receive this money it was explained that there were three men at this mine. James Turnbull, a Scotch miner, had worked under a compensation act in Scotland, and he said it caused the operators to be more careful in conducting the

mine and decreased the number of accidents.

MAY END STRIKE.

Paris, June 4.—In the course of his conference with the strikers' delegates, M. Thomson declared it was impossible to accede to their demands. He said, however, that any proposition would be considered if the strikers returned to duty immediately, in which case no punishment would be meted out, and the ship owners would be requested to retain both officers and men in their former positions.

The firm attitude of the minister and his promise that no penalties would be inflicted apparently convinced the strikers that it would be wiser to accept the government's proposal to increase the pensions of seamen from \$40.50 to \$70 and of officers from \$55 to \$200 a year than to continue to paralyze commerce and thus entirely alienate the sympathy of the public, which already has been greatly strained.

Later in the day the delegates received similar advice from the president of the naval committee of the Council of Deputies. At the end of this conference the delegates talked the matter over together with the results last the message unreservedly advising their comrades to return to their duties was drawn and sent. The only promise of a later agreement was that the men may decline to follow the advice of their delegates.

A New Brick Industry.

A new brick manufacturing industry will be established in the city as a result of the bankruptcy of the Melville Brick Company. The new company, owned by Messrs. Young, a Port William brick maker with fifteen years experience, has been in the city since the first of the year, looking over the most favorable locations, and has finally selected that on the farm of W. Collier, just east of the big packing plant site in the east end of the city. Messrs. Young and Collier have entered into partnership, under the name of the Belmont Brick Company. The machinery has been ordered, and they expect to be in running order by the end of the month. They will use the best quality of clay; in fact there are over twenty acres with twenty feet clay right at the surface.

Calgary Aldermen Restrict. Calgary, June 4.—Aldermen Young and McMillan resigned last night. Both men are leaving the city to reside in Vancouver.

RIVER HEIGHTS

RIVER HEIGHTS

The beautiful residential sub-division of River Heights is now being offered for sale for the first time at prices and terms which bring home within the reach of the average family.

River Heights takes in the south-easterly 60 acres of river lot 19, all within the city limits of Strathcona, and 50 acres of river lot 21, adjoining the boundary line of the city. A circle with the Alberta hotel for a centre and a radius of not more than 100 feet is the middle.

The inauguration of a street car service will bring all this property within ten minutes' ride of the busiest part of either city. The property which Premier Rutherford recently gave Strathcona for a park is right at the south end of the River Heights sub-division.

Municipal improvements, such as water works, light, sidewalks, etc., will all be forthcoming within a year or so on account of this fact that home building is to be encouraged. The lots which are not sold at the first sale will be kept off the market until they are secured at a price secured and the owners will do everything in their power, by petition and a willingness to bear a fair share of the rates involved, to see that these improvements are secured at once.

This is not an "out on the prairie" proposition. It is right in the city, you are to see the property come to the office and take a drive over it with us. It will only take a few minutes of your time and may make you hundreds of dollars.

There are 11 view lots in R.L. 19 to be sold. These lots are situated in the heart of the city of Edmonton, the parliament buildings and have a clear view of five miles of the valley of the Saskatchewan River. No finer lots were ever offered at any price. Those eleven are going at \$1,000 each, one cash; balance 6 and 12 at 7 per cent.

In block 3 of R.L. 19, there are a limited number of lots to be sold at from \$300 to \$500; terms the same. In blocks 4, 5, 6 and 7 the lots that are being offered will go at \$250 for inside lots and \$300 for outside lots. In subdivision of River Lot 21, lots are from \$125.00 to \$150.00 for inside lots and \$250.00 extra for corner lots of lots 1, 2 and 3.

There are 11 View Lots in R.L. 19 which will go at \$1,000 each, one cash, six and twelve months, seven per cent. interest.

Now Offered for The First Time

A beautiful Residential Sub-Division within the City Limits of Strathcona and less than one mile from the Edmonton Post Office.

CITY COUNCIL MET LAST NIGHT

Early Closing By-law Will be Enforced—Routine Business

The early closing by-law was the principal item in the agenda of the city council last night. After receiving petitions for and against the by-law and hearing arguments for both sides the council decided to stand by the by-law by a vote of four to two. The by-law will therefore go into effect at once, having been suspended pending the decision of the council at last night's meeting. Beyond this the business was of a routine nature.

A large number of the businessmen and clerks of the city were present and keenly interested themselves in the fate of the early closing by-law. When the decision was reached the council chamber was quickly deserted.

The first matter that came up was the receiving of petitions. A communication was read from Richmond & Kilpatrick, submitting that they be paid for the by-law and that since the company they represented had already paid it, they asked that the council should not pay the matter was referred to the council at next meeting of the council.

Early Closing Law. Mr. Mayor MacKenzie submitted a petition from the merchants and clerks of the city urging no interference with the early closing by-law. The petition of the east end merchants and clerks was also read. A meeting was read again. Another petition from the Trades and Labor Council was read supporting the by-law.

The petition against rescinding the by-law was supported by Mr. MacKenzie in a strong speech. He did not see the economy of having the by-law open until 10 p. m. to accommodate men who quit work at 5 p. m. The petition was signed by 50 employers and 400 employees.

Mr. J. W. Ryan spoke in favor of the petition, replying the by-law. Many of the small businesses of the city and the end of the day for their profit. The small merchants of the north

and east end had the same rights as the large merchants. He contended that the suppliers had right to be considered in the petition. The merchants of the east end should be considered as well as the business houses of Jasper street. If the by-law was enforced the small merchants would be forced to close up and get out.

Alderman Manson moved that the by-law be maintained. Employees in the city had as much right to short hours as any of the trades and labor classes.

Alderman Daly said he had been studying the question during the last week, and was in favor of a compromise. He moved that a committee of each side be appointed to confer with a committee from the council, three representing each party. The motion was seconded by Alderman Anderson.

Alderman Garripy said that from the plain statements in the petitions compromise was impossible and nothing would come of the conference. He thought the question could be settled at once.

He moved the whole matter by moving an amendment that the petition be referred to the committee to be held, when such a measure would be supported by a strong public sentiment and argued by many telling analogies in favor of the by-law.

For amendment—Alderman Garripy, Manson, McCauley and Walker. Against—Alderman Daly and Anderson.

Reports of Commissioners. With respect to the claim of J. B. Benson for the loss of a horse in a flood on Columbia avenue, the commissioners reported that the place was natural drain and could not be rectified during the winter. The sewer system was extended there, and that Mr. Benson's loss was caused by his negligence in driving through the drain instead of following the trail around the corner.

Office of City Surveyor Abolished. At a meeting of the council held last night, Mr. Briscoe, D.L.S., was nominated official city surveyor. The council was then preparing a map of the city and suggested that the appointment of a city surveyor be given and give consideration to those who had been given information. At present the commissioners consider the city engineer, is a fully qualified

dominion land surveyor and recommended that the office be abolished.

The report carried.

Inspector for Humans Society. The Humans Society having appointed Mr. Greaves inspector and persuasive officer for the society, have requested that he be appointed a constable. The commissioners reported that Mr. Greaves be sworn in as a constable without salary from the city.

The Water Street Blunder. A report was submitted admitting liability for damages to Charles "Broke Through" Drab of Water street. In their report on the matter the commissioners recommended that the sum of \$200.00 be paid into court on account of Mr. Charles Drab, and that the sum of \$500.00 be offered to Mr. Thomas Gaden in compensation for damages contained by them, and that the solicitor be instructed to defend the city in the suit now pending.

The report was received and passed.

Questions. Alderman Anderson wanted to know if the necessary curves were secured for the street railway, and asked if the by-law with respect to proper sanitation of the lot population was being enforced, as set forth in the health by-law. The Mayor assured him everything was being done in that direction.

Alderman Walker asked if anything was being done to provide breathing places in the city, and called attention to the clause of the health by-law regarding expectation on the sidewalk.

Alderman Walker, further, raised the question of the health by-law, and pointed out to traffic between Second and Fourth streets and if anything were being done to regulate street traffic.

The Mayor, in reply, stated that regulation of traffic was a question of police, and that it was not the job of the city to take this matter into their own hands.

Alderman Murrelay asked why the Laidlaw Hospital was not opened to the public. The Mayor said there was a contract with the contractor and architect, who contended the contract was finished.

Alderman Manson said the delay was creating such a serious situation that the city council would be warranted in finishing the building at once and charging it to the contractor.

Answers to Inquiries. Alderman Pearson: Do the W. H.

Harvey Company guarantee their paving across water connections, trenches, etc., etc.

Answer: The W. H. Harvey Company guarantee their paving across water connections, trenches, etc., etc., provided that they are satisfied with the nature in which these trenches are re-filled, and re-filling under their supervision of this company.

Alderman Daly: What has been done with petition for walk south side of Isabella street from Syndicate to Government avenue.

Answer: The work in connection with the petition will be carried on in its turn, when suitable material can be obtained.

Alderman Daly: Is there a by-law fixing the distance that houses are to be built from the sidewalks on residential streets?

Answer: There is not.

EMMERSON WAS NEVER EJECTED FROM HOTEL

James H. Crockett, editor of the *Frederickton* (Glasgow), has been sent up for trial on the charge of criminal libel yesterday by the court at St. Lawrence Hall. The sentence of the magistrate was delivered on Monday, the case having been laid over from Thursday last.

The proceedings at the preliminary were dramatic in the extreme, and the courtroom was crowded with many of those present being prominent in the public life of New Brunswick.

Mr. Emerson was the capital figure, and his testimony was listened to with the closest attention. His sworn effect that he had never been put out of a hotel in his life, either in company with women or ill-temper in any other way. He had left the St. Lawrence Hall in Montreal once because two lady friends, one of whom was the wife of an intercolonial official and an intimate friend of his family from childhood, had been insulted by a porter. His relations with the two ladies had been perfectly pure, and it was for no reason other than a desire to protect the ladies that he had accompanied them to another hotel.

For the Defense.

The chief witnesses for the defense were the night clerk of the St. Lawrence Hotel, John Lloyd, who swore that Harry Dean, the porter, reported that there were disturbing noises from Mr. Emerson's room at 1 o'clock. Lloyd said he did not identify the occupants that they must cause the noise or leave the hotel. Going up, Dean repeated the message. Shortly afterward one of the ladies paid the bill and left, and they left the hotel. He did not order them out. One of the ladies returned the occasion on which she paid the bill, and Dean said he did not get mad at him telling them to make leave the hotel. The other lady said that he did not order the party to leave the hotel make it quite certain that Mr. Emerson was not "put out" in any ordinary use of the words.

Crockett Weils It.

When the court opened evidence was given by H. L. Crockett, an assistant editor of the *Glasgow*, that the alleged libel was written by Mr. Crockett, the editor, and he was a witness for publication. The witness was then called on the basis of the deposition of the case on its merits, and Attorney General Pugsley, who is leading counsel for Mr. Emerson, at once placed his client in the box.

Mr. Emerson was called to the stand and gave his evidence in response to questions put by A. F. White, K. C.

The Hotel Incident.

"I am the informant in the matter. I was Minister of Railways and Canada since January 5, 1906. On April 15th last, I have on several occasions been a guest at the St. Lawrence Hall."

"Did you ever at any time leave the St. Lawrence Hall in company of two women?"

"No."

"What date was that?"

"About June 10th."

"What day was that?"

"On Sunday. I had come from Ottawa with Mr. Emerson."

"That was the only occasion on which you left the St. Lawrence Hall in company with two women?"

"Yes."

"You went to St. Lawrence Hall, and did you register?"

"I did."

"Were you shown a room?"

"I was."

"Had you had your supper at that time?"

"I did not have the evening meal."

"After you went to your room, what took place?"

"I came down into the office to see if I could find Mr. Peter, who stopped at that hotel."

"You had gone to the hotel for the purpose of seeing Mr. Peter?"

"Yes. I found he was not there, and glanced over the register of the hotel. I saw the names of the wife of a constituent of mine, a friend and the name of another lady, and I took the bellboy to show me to their room. It was not then dark."

"Did you expect to find the ladies in the hotel?"

"No, sir."

"No, sir."

"The boy brought you up to the room?"

"I was shown into the room. The door was shut. I sat talking. I did not have anything to eat, and as I could not get anything, I asked the ladies to accompany me to a restaurant. We went out to a restaurant and had supper. Subsequently, we came back. I stood and talked to them for some time."

"Were you in the room?"

"I don't think I was. I cannot tell actually. The room was in the front part of the building fronting on St. James street, under the hotel. My room was on the extreme southeast corner of the block, far removed. I had to go through a large drawing-room."

"Your room was in the front of the building and their room was in the extreme rear?"

"Yes."

Ladies Made a Complaint.

"You say you talked to them a few minutes? What then did you do?"

"I went to my own room. I think I sat down and had a little smoke. I was looking out the window trying to locate the streets. I went to bed and to sleep. I do not know how long after I heard a tapping at my door. I got up and inquired, and found that it was these ladies. I said: 'I will let you in shortly.' I went to a large bathroom adjoining my room and turned on the light."

I said that members of my family were going, and if there was room I would be pleased to accommodate her. On Friday I found there was room, and the lady accompanied my family myself to Montreal. At Levis the lady told me she had a friend who would be going with her to Montreal. We arrived in Montreal on Friday at 6.30.

The ladies came to Montreal, and I went on to Ottawa, and my mother went to Toronto, while the other two ladies accompanied my family to Ottawa.

LONGHOREN RETURN.

New York, June 3.—A long stop to the end of the strike of longshoremen was taken today when about 5,000 of the strikers returned to work on the docks of the Coastwise and the smaller steamship lines, and at the terminal companies where tramp steamers discharge their cargoes. These companies accepted an offer made by the strikers by which the men will be paid 35 cents an hour for a day's work, 40 cents for night work, and 60 cents for holidays and Sundays.

The officials of the trans-Atlantic lines, however, did not accept the compromise.

RIOT AT HAVRE.

Havre, June 3.—The striking seamen here have sent an urgent appeal to their English comrades at Southampton not to allow the Emigration from Havre to go on board British vessels at that port for transportation to the United States, and assurances have been obtained that the strikers at Cherbourg will try to prevent their embarkation there. There was a riot here today between striking men and fishermen. The latter were assailed by the former who made a struggle emptied their weapons. A number of arrests were made.

TELEGRAPHERS MAKE DEMANDS.

New York, June 3.—The Commercial Telegraphers' Union of America, through its executive officers, today made a demand of the board of directors of the Western Union Telegraph company a statement of grievances and requests for a change of conditions. Copies of the statement of grievances were also sent to Mrs. Russell Sage and Miss Helen Gould. Officials of the company and representatives of the union both said today that they do not believe there will be a strike as a result of the demands.

Burnham Released.

New York, June 3.—George Burnham, the former general counsel for the Mutual Reserve Life Insurance Company, who was granted a non-trial while serving a two-year sentence in Sing Sing for grand larceny, today was released from the Tombs on \$7,500 bail.

THE IRISH BILL IS DROPPED

But Another Measure Will be Introduced Dealing With Tenants Rights.

London, June 3.—The Irish bill was formally dropped by the government this afternoon with scant ceremony, and only the most perfunctory notice was given to the members of its ministerial sponsors. The House of Commons was well represented when Premier Campbell-Bannerman rose to make his promised statement on the cabinet's decision regarding what measures it was necessary to eliminate from the government's over-weighted legislative programme, so that the present session might be brought to a close in the usual time. "I believe," said the premier, "that the Irish people would have done well to give the details of the measure better attention than appears to have been the case at the recent convention. But in view of the assurance of the leader of the Irish party in the House of Commons that he would abide by the decision of the convention, and in view of the unanimous decision of the convention to reject the bill, the government cannot, of course, do anything further with it."

The premier said that the decision of the representatives of the Irish people was a source of sincere regret and disappointment to the minister, but now that the Irish bill was dropped the government intended to introduce at the present session an "Irish Tenants Restoration Bill" with powers of compulsory purchase.

As the cabinet had decided against an autumn session, the premier continued, it was necessary to drop the licensing bill. This, however, would be the very first measure to be taken up at the next session. The measure designed to relieve the "Passive Resisters" from paying education rates for religious instruction, the premier further announced, would also be crowded out, but the government was determined to introduce at the next session a comprehensive education bill, putting the whole education system of the country in order.

Regarding the long promised attempt to restrict the power of the House of Lords, the premier said that so soon as they had made a little further progress on the essential business of the session, he proposed to introduce a resolution on the subject, either on June 17th or June 24th, when the government would finally state its views on the matter. The premier then announced the

abandonment of a number of measures of only domestic interest, and enumerated those which it was intended to pass, concluding with remarking: "When I say 'pass' I mean pass the House of Commons, and not the House of Lords, which will be the action of the House of Lords."

LETHBRIDGE TROUBLE AVERTED

Frank Alberta, June 4.—The threatened trouble in the Lethbridge mines has been averted. It was learned this morning that a two years agreement had been accepted by the officials at Lethbridge and representatives of the men and now awaits confirmation by A. M. Stanton, general manager of the company. A conciliation board had been asked for, but its services will not be necessary.

Two Killed.

Rochester, N. Y., June 3.—Two men were killed in a wreck on the Western New York and Pennsylvania Railroad early today at Severance, seven miles from Rochester. The dead are: Lewis Allen, Olson, engineer; William Ross, Rochester. A freight train which left Rochester at 7 o'clock this morning jumped the track at a point two miles north of Rochester. Three cars were derailed, and the cars piled up, blocking the track.

Miners' Strike Ordered.

Indianapolis, Ind., June 3.—The executive board of the United Mine Workers of America, Cleveland district, today ordered about 5,000 miners to strike on Friday. The miners have eight or ten grievances.

NEW MEDICINE HAT STEAMER.

Medicine Hat, June 4.—The Alberta Navigation Company's new steamboat, City of Medicine Hat, was successfully launched this afternoon in the presence of a vast concourse of citizens and residents of the district. The steamer was all closed for the afternoon and the school children were given a holiday. Miss Hazel Connors, daughter of the mayor of the city, christened the boat and the mayor made a short address, after which Capt. H. H. Ross gave the word and the ropes were cut, allowing the big steamer to glide gracefully into the water. The council presented a silver service in honor of the event. The boat will be used on the South Saskatchewan for freight and passenger service and can accommodate 250 passengers.

IMPROVEMENT OF SHORTHORNS.

Professor Kennedy, of Iowa State College, gives advice on the Dual Purpose Cow.

In a recent address before the Central Shorthorn Breeders' Convention at Kansas City, Prof. J. Kennedy, of the Iowa Agricultural College, gave some advice that short-horn breeders of Canada, as well as of the United States, would do well to follow. The speaker pointed out that in the short-horn are by no means confined to that breed, and that questions for improvement apply with equal force to the other beef breeds. Discussing the live stock situation generally and the present demands of the market, Professor Kennedy said: "The stockmen of America to-day may be divided into three distinct classes so far as their work in the production of cattle is concerned, namely, beef cattle men, dual purpose cattle men, and the strictly dairy cattle men. The latter class confine their attention to the strictly dairy breeds. The first two limited classes have been more or less interested in short-horn cattle. They constitute a very large class in America to-day, and their demands are worth catering to."

What Beef Breeders Demand. "Now what do they demand? The beef cattle man is directly concerned in the production of meat. He must be guided in his operations by the requirements of the packing house. Thus, we must start at the packing house and work back to the farm. The packing-house men are demanding wide, deep, blocky animals, with the highest possible percentage of high priced cuts, and the least possible amount of waste and cheap meat. In addition these animals must possess a very liberal allowance of lean meat, intermingled with the fat, so as to present an evenly marbled appearance. These steers are the kind that have been winning the championships in the individual and car load lot exhibits at the leading American fat stock shows. If you expect to meet the best demands of the beef cattle man you must produce bulls of this type, because high-class steers have never been sired by a inferior bull. These are the market demands, and no attention whatever is paid to the color or the shape of the steer, provided his form meets the approval of the packer and his flesh the touch of the butcher. Will the type of short-horn that you are breeding fit the bill? If not, and this is the market you are breeding for, you should either make a change for the better, else get out of the short-horn breeding business."

The Dual Purpose Cow. "The dual purpose cow is becoming an animal that combines in a liberal way the ability to convert food into beef and butter, when used in the dairy, and to flesh rapidly when placed in the slaughter house, whose calves will develop into very acceptable fat bullocks. The animal that does not meet the demands of the beef cattle man is a dual purpose cow is a dual purpose beast. In the great majority of instances it is unmitigated evidence that it does not belong to any profit-producing animal. Some good milking animals are rather high off the ground and do not possess all the characteristics essential in the make up of the ideal beef bullock. It is guaranteed that the animal that does not possess the appearance of a beef type must be discarded from the standpoint of milk production. That there is a dual purpose animal cannot be successfully denied, and it is a regrettable fact that these animals are so few in numbers for the best interests of the farmers of the Middle West. It is the breeder who attempts to perpetuate both beef and milk in the same animal has a most difficult task to perform, cannot be denied, but it can be done, and the man who does it will be well repaid for his trouble."

Must Improve Milking Qualities. "This is one of the lines in which the breeder of short-horn cattle must take up. No breed excels the short-horn from the standpoint of beef and milk, where proper care has been used in the selection and making of the animals. But this matter must be given more consideration. Short-horn men, as a class, have been working the hard game for almost a century, the world's most famous beef and butter cow. It is up to the breeders of this breed to say whether or not she must lose her place, but there is one thing that at certain times there must be more milk, else there will be fewer of the reds, the whites, and the roses."

How to Effect Improvements.

"Having discussed the essentials that are, and will be demanded of the short-horn cattle, another important point has been reached. How to improve the breed, maintain a high standard of excellence, and let them stand of our own fraternity know that we are doing. In the first place, the breed of animals has ever been brought to a high standard of excellence, and that standard maintained for any considerable length of time, where a vigorous breed of breeding out the inferior animals and the retaining of only those animals of the desired type was not pursued. Even where the most rigid precautions in this direction are pursued, inferior animals among the offspring are always too much in evidence. No breed stress and attention cannot be given to this phase of the work. Breeders must concentrate more of their young bulls."

A Good Steer vs. A Poor Bull.

"This is not poor economy. It is much more profitable to produce a \$750 steer than a \$1000 bull. As long as you produce \$600 bulls, you will have buyers for that class of animals. Just as long as a \$1000 steer \$600 bulls you are depressing the value of short-horn cattle and can

phasing the strong points of the other breeds, whose breeders are more conservative and wide awake to their own best interests. There are many breeds of short-horn cattle, and the present day men are advertising from thirty years ago, but for the most part they should realize that more than half of that number of pure bred short-horn steers in the last lot, not with the hope of topping the market, because they would be most fortunate at marketing time if they get within a cent or two cents a pound of the average top lot. It is the sale of the kind of bulls that money or bull calves runs any breed. When you come across a bull that would not make a steer that would sell when fat within a half cent of the top of the market. Next year have a little higher standard, and by continuing this way you will not only be benefitting yourself, but the entire community. Do not try to convince yourself, and then later on convince some new beginner in the business that long legs, coarse shoulders, light bodies, flat ribs, cock horns, and cat hams are the indications of milking qualities in the young bull, especially if he has not had enough milk to half nourish him during the first five months of his life. Keep only those young bulls for breeding purposes that you can breed good enough to use at the head of your own herd, and then you will be doing a noble and factious work for the breed."

Keep Milking Records. "So much for the methods of improving and maintaining the standard of the breed. The next step in our work is to demonstrate this we have the goods. How can this be best done? This is an old question, and a very true saying that 'Nothing succeeds like success.' Just apply this to the animals of the short-horn breed. The best way to demonstrate that the short-horn cow is capable of producing milk and butter is to keep a yearly record of the milk and butter she produces. Do this yourself, because no sane man will accept the cow's word for what the milk can do. The man who will keep such records and who owns good producing cows will experience no difficulty in disposing of all his pure bred calves at very remunerative prices as fast as they reach a serviceable age, because there is a strong and growing demand for this class of 'short-horn cattle.'"

Another important point in demonstrating the value of the short-horn pure-bred cattle urged by Professor Kennedy is that of bringing out the class well-bred specimens of the breed to the fat stock shows. For this purpose the best is none too good, for there is no better advertisement for the breed than in the winning of prizes at the fat stock shows."

OFFICER TO BREEDERS.

The Department of Agriculture has prepared a poster for distribution to all farmers, containing the requirements of the Horse Breeders Ordinance that should be of interest to all farmers and Township 28 Range 4 west of the Fifth Meridian. The ordinance requires that every person or firm traveling or standing a stallion for hire or for sale must hold a certificate of approval from the Department of Agriculture. The certificate is issued on the basis of the age and stating whether the animal is a 'pure bred,' 'grade' or 'cross-bred.' The object of this compulsory ordinance is to protect farmers and stallion owners against unwarranted claims for horses as being pure bred and registered when they are not. The farmer is not always in a position to know whether the certificate produced by a stallion is a genuine one, or if genuine, of any value; consequently every stallion owner is required to forward the pedigree certificate of his horse to the department for examination. If it is found to be in a reliable stock book, department certificate is issued stating that the horse is a 'pure-bred' animal. If the certificate is not found to be in a reliable stock book, or the owner cannot produce one, no matter what claim he may make, no 'grade' certificate will be issued. Further, the owner of a stallion who is being compelled to post a notice containing a copy of the department's certificate on the inside and outside of the main door of every stable the stallion stands in, also all advertising issued must contain a copy of the department's certificate. It is the duty of every farmer and stallion owner to protect himself and his horse-breeding industry by seeing that every stallion in his district is enrolled with the department. The enrollment fee is \$25. The penalties contingent upon violation of the requirements of the ordinance are as follows: Twenty-five dollars on summary conviction before any justice of the peace."

1. For not having stallion enrolled with the department.
2. For not having copy of department's certificate on stable door.
3. For not having copy of department's certificate on all advertising.

MORE "NATURAL" GAS.

To the Editor of the Bulletin.

Sir—The editorial in the yesterday's Bulletin concerning the gas by-law vote, calls for a few remarks. It occurs to me that the present occasion permits and justifies that same simple direction of expression which characterized the remarks of the Bulletin when commenting upon the remarks of its contemporaries some few months ago.

The Bulletin states that "from the first His Worship made it clear that he was going to use his position to force the 'nonopoly' clause of the natural gas franchise through the council, and that he was going to prevent the artificial gas people from getting even a fair deal if at all possible." The Bulletin lies and the Bulletin knows it.

When the Bulletin states that I attempted to eliminate the agreement from the by-laws "so that the people would not read them in full," the Bulletin knows it.

What the Bulletin states that my comparisons between the cost of coal and gas were ridiculous, the Bulletin makes a large pile of dirt of itself, and the thoughtful readers know it.

What the Bulletin states that the frequent criticisms of myself, its rabid, illogical and untruthful statements are accepted by the general public as fair criticism, the Bulletin is mistaken.

The oldest timer and the latest news-monger will know that the Bulletin desires above all things that I should say down my office an absolutely disinterested man, nor shall the progress of municipal affairs, the value of rail and the four points of journalistic ethics serve to deter the Bulletin from making the attempt.

Of the vote itself, the people have spoken, and I accept their verdict, as indeed I must. I can only hope that the people will have no cause to regret their verdict.

As for me I believe that I have done my duty; if a great many people do not agree with me in this matter, that is a little thing which never comes into my mind.

Of the Bulletin does not agree with me, so much the better, or the Bulletin, as an old-timer, may be permitted to say to the fact is evidence of the fact that since Frank Oliver left the editorial end of the Bulletin to run itself, it has been such a purveyor of public opinion as it used to be.

I am aware that it is not generally well known that the Bulletin is a paper between Williams' Pink Pills and the St. Asa. You have the whole issue of your paper, and I reply, but there are occasions when the mildest mannered individual with a great longing to do decently with the individual who is so much of a trouble to the city, and in columns of a newspaper to read that spite, and finds his protection behind the editor's desk.

Your obedient servant,
W. A. GRIBBACH,
Mayor of Edmonton.
